PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

The Zhmerinka Army Barracks Southwest covers approximately 160 acres in Zhmerinka (Figure 1) and is divided almost in half by a multitrack rail line and a road. The north portion (Figures 2 and 3) contains a barracks building, an administration building, storage and support buildings, four POL tanks, and a probable rifle range. The south portion contains barracks, two POL tanks, a probable rifle range, storage/support buildings, and a motor park where a possible line of vehicles is apparent. A

double-fenced ammunition storage area containing six buildings inside an enclosure and one outside is located about 2 kilometers (km) southwest of the installation. A training area containing driver training courses and firing ranges is located about 7 km north-northeast.

The installation was covered by KEY-HOLE missions between [REDACTED] A comparative study reveals no major changes.

DESCRIPTION OF INSTALLATION

Railroad Service

A multitrack rail line runs through the installation. No rail spur is apparent entering the area.

Road Service

The installation has good roads paralleling its boundaries and entering the installation at several points.

Administrative and Troop Housing Areas

Area D1 contains four barracks (two probably multistory), one administration building, and 29 storage/support buildings.

Area D2 contains one multistory barracks, one administration building, 15 storage buildings, and 4 support buildings.

Ammunition Storage Area

Area F contains six ammunition storage buildings, four 60 by 40 feet and two 40 by 30 feet. The area is secured by a double fence. An administration building is located just out-

side the enclosure. This ammunition storage area is located about 2 km southwest of the military installation and is connected to it by road.

POL Storage Areas

Area G1 contains two 20-foot in diameter probable tanks.

Area G2 contains four 45-foot in diameter probably fenced tanks.

Equipment Storage/Maintenance Areas

Area J is a 1,700 by 1,500 foot motor park containing two vehicle sheds, 350 by 50 feet and 270 by 50 feet, and five probable maintenance buildings, 70 by 35 feet, 30 by 20 feet, 35 by 20 feet, 45 by 25 feet, and 75 by 40 feet. A possible line of 15 to 20 vehicles was observed in the motor park.

Small Arms Firing Ranges

Areas L1 and L2 are probable rifle ranges, 350 by 80 feet and 400 by 60 feet, respectively.
